

WE ARE EUROPE TOO: SMALL TOWNS COUNTERATTACK!

ETWINNING

SHORT DESCRIPTION

Living in a small towns for today's teenagers makes it hard for them to really feel European! What does it mean? In what ways is my small town European? What does it have to offer to tourists? A lot of times, when they think of European cities, they think of the capital of their country or the big cities.

This project regroups teachers and their students from small towns in Europe (France, Italy, Romania and Bulgaria).

The aim is to show our students that small towns are/can be as European as the big ones.
